Summary

Frontend Developer experienced in building responsive interfaces and reusable components with Next.js, React, and TanStack Query. Acts as a product-minded engineer, collaborating closely with backend teams, designers, and product managers to shape features end-to-end.

Experience

Frontend Developer, GEN-TECH – Cairo, Egypt

Feb 2025 – Present

- Built clean, responsive, and accessible interfaces using Next.js, React, and Tailwind CSS, ensuring a smooth experience across all devices.
- Created and maintained a reusable components used across multiple client projects, helping the team ship features faster and with consistent quality.
- Worked heavily with TanStack Query for client-side data fetching, caching, and synchronization, integrating REST APIs to provide fast and reliable updates.
- Used AI tools effectively throughout the development process, researching solutions, generating test cases, improving code quality, and speeding up delivery.
- Played an active role in refining product requirements: collaborated with product owners, clarified user stories, proposed improvements, and shaped new features from early ideas to final implementation.
- Worked closely within an Agile team, contributing to sprint planning, grooming sessions, and daily standups while consistently delivering features on time.
- Paired with developers, exchanged technical insights, and provided code reviews to maintain a high standard of code quality across projects.

Coding Instructor, iSchool – Cairo, Egypt

Aug 2024 – Sep 2024

As a Coding Instructor for the DEMI summer project:

- Taught coding and technology fundamentals to 4th-6th grade students using Python and the Godot game engine.
- Delivered engaging, hands-on lessons that encouraged exploration, creativity, and experimentation through interactive projects.

Software Engineer Intern, Mogassam 3D – Cairo, Egypt

Jul 2021 - Aug 2021

During this internship:

- Maintained C++ classes for application modules, and improving some existing functionality.
- Wrote and executed unit tests using Qt-Test to ensure code reliability and module correctness.
- Applied computer graphics and mathematical concepts including linear algebra, trigonometry, and solid geometry.

Education

Ain Shams University, BSc in Computer Science

Sep 2023 - Present

• Academic Engagement:

- Delivered a student-led session introducing Git, covering its history, and core concepts.
- Conducted a practical session on database design, explaining normalization, ER modeling, and schema planning.
- Frequently assisted colleagues with diverse academic projects including database modeling, web development, and Unity, providing guidance on implementation, debugging, and design decisions.

Skills

Languages: Javascript, Typescript, Python, C++

Tools and Technologies: React.js, Next.js, TanStack-Query, Zustand, Tailwind CSS, Sass, NodeJs, Git, MySQL

Skills: Problem Solving, Analytical Thinking, Communication and Presentation Skills

Certificates

ECPC Finalist: [ICPC Profile](#)

Aug 2024
